📱 QR-Code Table Ordering
Guests scan the QR code at the table, select conveniently, and order directly via their smartphone, significantly easing the workload on service staff.

🗓️ Table Reservations
Manage all your table reservations centrally in one place, avoid double bookings, and maximize capacity utilization.

🗓️ Weekly Menus & Social Media
Plan your daily or weekly menus with just a few clicks in the system and share them directly online on social media.

⏰ Integrated Time Management
Keep a precise overview of your employees' working hours and shifts, optimize planning, and save valuable time.

🚀 No App Installation Required
Guests do not need to download an app – the digital menu opens lightning-fast and intuitively in their mobile web browser.

🌎 Multilingual Menu
International guests order completely barrier-free in their native language – for even more comfort and satisfaction.

🔍 Automatic Allergen Filter
Guests filter dishes in seconds according to their personal allergies and intolerances for maximum safety.

⚡ AI Menu Import
Upload your menu – our AI reads all dishes, prices, and categories fully automatically in just a few seconds.

⭐ Digital Regular Guest Pass
Build long-term guest loyalty, automatically reward recurring visits, and increase customer retention.

♾️ Unlimited Management
There are no limits: Manage any number of tables, rooms, menu categories, and dishes completely flexibly and individually.

🛡️ EU Allergens & Legal Compliance
Automatic, seamless, and legally compliant labeling of all EU allergens and additives directly for every dish.

📈 Higher Sales & Faster Orders
Guests reorder faster because the menu is right at the table. This increases the average check size and your daily revenue.

🖥️ Real-Time Kitchen Monitor
Orders are instantly transmitted digitally to the kitchen, avoiding long walking distances and unnecessary service errors.

⭐ Google Reviews with Protection
Actively collect 5-star feedback. Critical feedback is intercepted internally beforehand to prevent negative Google reviews.
